

How to Clean Your Bong

1

POUR OUT BONG WATER
Empty the used water from your bong.

2

DISASSEMBLE YOUR BONG
Remove the bowl and stem from your bong. Set both pieces aside.

3

RINSE WITH HOT WATER
Rinse each piece of your bong with hot water to loosen up any residue.

4

SOAK THE BOWL & STEM
Place the bowl and stem in a bowl of boiling hot water to break down the resin.

5

ADD ISOPROPYL ALCOHOL
Fill the bong's chamber with isopropyl alcohol, ensuring it covers all dirty areas.

6

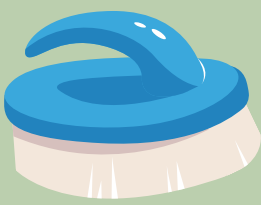

ADD COARSE SALT
Add a teaspoon of coarse salt to the alcohol in the bong.

7

PLUG OPENINGS AND SHAKE
Cover the bong openings and shake vigorously to clean the inside.

8

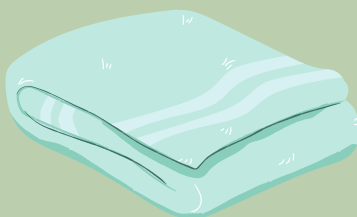

SCRUB STUBBORN SPOTS
Use cleaning brushes or pipe cleaners to scrub any stubborn spots.

9

RINSE THOROUGHLY
Pour out the alcohol and salt mixture and rinse the bong thoroughly with hot water.

10

DRY AND REASSEMBLE
Dry all pieces with paper towels or a clean cloth, then reassemble the bong.

11

REFILL AND ENJOY
Fill the bong with fresh, clean water and enjoy your next session.
